As you begin your journey with acupuncture there are a few things important to know. Please give these thoughts your careful attention.

When coming in for treatment please, don't over use products that obscure your natural odor or color. Such products include cologne, fragrant soaps, shampoos, conditioner and lotions. These products can interfere with the diagnostic process. Deodorant, however, can be worn as usual.

When you arrive for treatment it is best to have a little something in your stomach, but please do not eat a large meal just prior to treatment as it can skew pulse readings.

On the day of treatment and for 24 hours after, I recommend you reduce your intake of caffeine and abstain from alcohol. This will help to maximize the effects of your treatment. It is always wise to drink lots of water. This is especially true immediately after treatment as this will aid in flushing your system of toxins. For 24 hours after your session it is best not to have a massage or any other bodywork, not to partake in strenuous exercise or have a sauna, hot tub (or even a very hot shower). These can diminish the effect of energy work.

If you have any questions please do not hesitate to call me.

# You have the right to receive a "Good Faith Estimate" explaining how much your healthcare will cost

Under federal law, health care providers need to give individuals who don't have certain types of health care coverage or who are not using certain types of health care coverage a Good Faith Estimate (GFE) of their bill for health care items and services before those items or services are provided.

- You have the right to receive a Good Faith Estimate (GFE) for the total expected cost of any health care items or services upon request or when scheduling such items or services. This includes related costs like medical tests, prescription drugs, equipment, and hospital fees.
- There may be additional items or services the convening provider recommends as part of the course of care that must be scheduled or requested separately and are not included in the GFE.
- The information provided in the GFE at the time it is provide is only an estimate regarding items or services reasonably expected to be furnished, and actual items, services, or charges may differ.
- The GFE is not a contract and does not require an individual to obtain the item or services from any of the providers listed in the GFE.
- If you schedule a health care item or service at least 3 business days in advance, the provider or facility is required to send you a Good Faith Estimate in writing within 1 business day after scheduling.
- If you schedule a health care item or service between 4 and 10 business days in advance, the provider or facility is required to send you Good Faith Estimate in writing within 3 business days after scheduling.
- If you schedule a same-day item or service, the provider or facility must furnish you with a Good Faith Estimate no less than three hours before you scheduled appointment or service time.
- You can also ask any health care provider or facility for a Good Faith Estimate before you schedule an item or service. If you do, a provider or facility is required to provide you a Good Faith Estimate in writing within 3 business days.
- You have the right to initiate the patient-provider dispute resolution process if the actual billed charges are substantially in excess of the expected charges included in the GFE.
- The GFE disclaimer must include instructions for learning more about the billing dispute process along with a statement that initiation of the process will not adversely impact the quality of care you receive.
- Make sure to save a copy or picture of your Good Faith Estimate and the bill.
